

## **Paint The Town 2010 Quotes from Residents**

“The support and follow-up was wonderful! There was clear communication to define the work and ensure that all of my needs and desires were met.”

“I felt comfortable with the volunteers and grateful for what they did for us. I especially appreciated that they showed that they cared about the project by running things by me first.”

“I felt this project not only gave our house and others on the street a facelift, but allowed us neighbors to become closer. In fact I met some of them for the first time.”

“Everyone was very helpful – great volunteers!! The organizational staff was very service-oriented and made sure everything was provided for.

“Timely help with a failing fence! The overall look of the house was greatly improved. Thanks for brightening our street!
