What is *Weed and Seed*?

Weed and Seed is a community-based strategy sponsored by the U.S. Department of Justice (DOJ) to “weed out” violent crime and drugs and “seed” with human services, including after school and evening programs for youth, family activities, and a variety of neighborhood improvement efforts.

What are some of the *Weed and Seed* Activities?

- Increasing the partnership between law enforcement departments to reduce drugs and violent crime
- Providing information, education and support to landlords and homeowners to improve Oak Park neighborhoods
- Gathering and sharing information on drug treatment services in Oak Park
- Enhancing existing activities including the Second Saturday Community Clean-ups at McClatchy Park, Friday Late Nite program at the Oak Park Community Center, YouthWORKS afterschool program, and NeighborWorks homeownership classes.

How can I get involved?

- Join us at the monthly Steering Committee on the 4th Wednesday of each month from 5:00 p.m. – 6:30 p.m. to share your ideas and input.
- Help us develop some of the programs by getting involved in a committee.
- Join us for a Second Saturday Clean-up.
